SIX THOUSAND POUNDS OF FISH

And Over 200 Bushels of Oysters Are Consumed Weekly by the Citizens of Daytona.

A visit to the fish and oyster markets in the city discloses the fact that an immense business is done in these food products. Lately it has frequently happened that persons desiring fish have been unable to get them. The reason for this is that dealers have had no idea of the vast number of people who would be visitors here and adequate facilities were not made.

Another year will undoubtedly see a wholesale fish and oyster house established here by men who know the business and understand the situation here.

From inquiries made at the various fish houses it was ascertained that the fish most sought were bass and trout, the former selling for 8 cents per pound and the latter being 10. Sheepshead and other bottom fish are often asked for, but the mullet, which is very scarce, is seldom demanded.

Large quantities of these fish, probably 5,000 pounds, are shipped here in barrels from Fort Pierce and Titusville, the Halifax furnishing about 2,000 pounds.

Long & Co., the oldest dealers here, buy about 800 pounds of mackerel, etc., in Miami, the balance of their fish, about 1,000 pounds, being caught between here and the Inlet. They also handle the River Bay oyster in quantities of 100 bushels a week, but the supply by no means equals the demand.

Mayfield & Cowan handle about 10 barrels of fish and 10 bushels of oysters a week. J. H. Gibbon procures all of his fish and oysters near Fort Orange except Spanish mackerel which come from Miami. In this market six barrels of fish and 75 bushels of oysters are sold per week.

J. W. Keilly handles fish only and is at present the largest dealer. He handles about 3,500 pounds a week, all of which are procured south of Titusville.

TRAVEL HEAVY ON RAILROAD

Trains Crowded and the Depot Presents an Animated Appearance all the Afternoon.

Faint idea of the enormous travel to Florida this winter is grasped by those who never visit the railway station here and observe the incoming and outgoing crowds.

Every train arriving here from the North brings its full quota of visitors and many of them arrive filled to their utmost capacity and always drop a few visitors here, a smaller number departing for a few days trip at Palm Beach, Miami and other points.

Travel from the south is now getting heavier and it is upon these trains that the incoming tourists arrive. The depot here presents a very animated appearance now nearly all day. The numerous trains from both directions pour in their human freight, while the places they vacate are taken by the departing tourists.

Many people, visitors and home people, meet the trains daily expecting friends and relatives, and frequently some amusing scenes may be seen there as old acquaintances meet.

A visit to the navy yard on the island shows that the Olympia will be in fighting trim for the fireworks display Friday evening at 7 p. m.

C. H. Gabeler, Thos. W. Bishop, Troy, N. Y.; F. D. Johnson and wife, Georgia; C. C. Kournasky, Paris, France, are guests of Schmidt's Villa.

Mrs. J. E. Wragg, Misses W. M. and F. M. Tracy, Highwood Park, N. J., Mrs. D. J. Hancock, N. Y. are guests of The Cleveland.

Mrs. H. D. Robinson, R. C. Robinson and wife, Miss Elizabeth Corson, Ocean City, N. J., are registered at The Austin.

A. N. Park, Boston; R. Webber and wife, N. Y.; H. A. Dunbar and wife, Brooklyn; J. Valkommer and wife, Pittsfield, Mass., are guests of The Ridgewood.

Got Home for the Parade.

Former Judge Kenneth F. Sutherland arrived home from Daytona, Fla., on Saturday evening for the parade of the firemen out since his stay. He lived Daytona well and made some investments with a view of building.—Ocean Island News.

While here Judge Sutherland purchased a valuable lot, corner of Volusia and Bridgewood avenues 50x150 feet on which a fine residence will be erected before another season. S. H. Gove has the plans drawn and has secured the contract.

The Odonnales annual ball will be given tonight.

Prominent Baltimoreans registered at Schmidt's Villa are Mr and Mrs. Geo. W. Mann and Miss Mann. Mr. Mann is what is usually styled a self made man, he having risen to his present financial standing by his own efforts, and is moreover a genial, pleasant gentleman.

Bradshaw-Alexander Nuptials.

The wedding of John Neil Bradshaw and Miss Elise Alexander at Trinity church, St. Augustine, was a very brilliant social affair.

The gallant groom is the Colonel of the 2nd Florida Regiment and the charming bride the daughter of Mr. and Mrs. Alexander of St. Augustine. The church was decorated with palms and tropical foliage and was packed from Chancel rail to exit and nearly all in full dress. The costumes of the ladies were both elaborate and bewitching. The affair was most felicitous in every way.

After the ceremony a reception was held at the home of the parents of the bride and was thronged by the friends of the happy pair who drank to their life long happiness.

The upper rooms were devoted to the display of the bridal presents which comprised cut glass, silver and bric a brac in profusion.

After the reception the newly wedded pair left on the 9:30 p. m. train for a bridal trip, embracing Cuba and from thence to their home in Texas. Those attending from Daytona were Mr. and Mrs. C. M. Bingham, Jr., Mr. and Mrs. C. L. Smith and A. H. Schmidt.

A. J. Knight has about completed a handsome cottage in Kingston for W. H. Parker. The cottage is a two story one and has all modern conveniences.

Will Get New Trial.

Mrs. Helen Wilmans Post, of Seabreeze, Fla., who was convicted at the last term of the United States Court in this city, of using the United mails for fraudulent purposes in carrying on her "absent treatment," will not go to the penitentiary to serve out the sentence of one year and one day imposed by the court, for yesterday the United States Court of Appeals at New Orleans, reversed the decision of Judge J. W. Locke, of this city. This means that Mrs. Post will get a new trial.—Jacksonville Metropolis.

The numerous friends of Mrs. Post will hear this news with much pleasure. Mrs. Post has done more toward the upbuilding of Seabreeze than any other property owner there and had her business not been broken up, would have spent thousands of dollars more in building and improving the town which she virtually established.

EUCHRE PARTIES LAST NIGHT

At the Seaside Inn and Grand Atlantic Prove Very Interesting for the Many Contestants.

The guests of The Seaside Inn last night assembled to indulge in progressive euchre. Ten tables were brought into requisition to accommodate the large number of contestants.

Mrs. Dr. Van Valzah secured the ladies' first prize, a handsome silver souvenir spoon. A gold signet hat pin was awarded Mrs. Stearns, of Cleveland.

Dr. Van Valzah was awarded an Ormond-Daytona beach book as the best gentleman player present, and Horace F. Stewart secured a handsome deck of cards in a leather case.

An eight table progressive euchre party was given in the parlors of The Grand Atlantic last night.

The winners of prizes offered for ladies were Miss Mulholland, Mesdames Montgomery and Webster in the order named.

Miss Lambert, Mr. Chapin and Dr. Rawlings were winners of the gentlemen's prizes in the order named.

Dr. G. M. Wallace, mayor of Ormond, and daughter were registered at the City Hotel yesterday.

The launch Cleve brought a large party from Ormond yesterday on a business trip to the city.

Horace Hull is building a two story cottage for himself in Kingston which will be a desirable addition to his section of the town.

The yacht Triton left this morning for a few days sail on the river with no special objective point in view, but going whither the shifting breeze would blow them. Among those in the party were Mr. and Mrs. E. T. Merrill, owners of the yacht, Mrs. Hills, Miss Dorothy Hills, Mrs. Mathewson and Col. Edwards.

BIG FISH CAUGHT IN HALIFAX.

A Few of the Most Noted Catches Which Have Been Made in the Halifax Near Daytona.

At times fishing proves very poor sport in the Halifax river or in the ocean near here, due mainly to cool weather which forces the fish to seek deeper and warmer water. But let the genial rays of Old Sol pour down for a few days and raise the temperature of the waters and the fisherman will find, each in its proper season, many of the largest and gamest of fish.

During the summer months when the tarpon, the king of all game fish, sport in the waters of the river and ocean here, they may often be seen in the early morning leaping into the air, their silvery sides, dripping and glistening with water, presenting a sight not soon forgotten.

During the summer, Wm. Rodgers and a Mr. Lasseter, of Texas, landed two tarpon, one weighing 98 pounds and the other 82. The week before, Mr. Rodgers landed one weighing 100 pounds.

A few days after this, Capt. J. B. Parkinson with Wm. Rodgers in one boat and R. S. Maley and Percy Rodgers in another, tried the tarpon fishing. Messrs. Parkinson and Maley succeeded in hooking a fish each. Mr. Maley landed his in about forty minutes, when its length was found to be five feet, seven inches.

Mr. Parkinson was not so fortunate. The small boat nearly swamped several times from the heavy waves, but at last, with Wm. Rodgers assistance, the fish was played up to the shore and gaffed, after leaping from eight to ten feet in the air at least twenty times. This one measured six feet eight inches.

During the same month a party and fishing from Keating's pier, caught 1,150 pounds of bass, many of them weighing over 25 pounds each.

For the past month or more, due to cool weather, few fish have been

The circulation of the DAILY NEWS is steadily increasing and on Monday passed the 500 mark by a clear majority of 100. Monday's edition of the paper was exhausted fifteen minutes after the last form was off the press. 600 for a daily in a city the size of Daytona is a very creditable showing and is evidence that the public appreciate our efforts. It shall be our aim to build the circulation to a still higher figure and to accomplish this will make it better and better each day.

caught here, but during the past few days several large strings have been caught, and all records for big sheepshead have been broken.

R. T. Pearson, of Allegheny, Pa., started in last week and caught an 8½ pound sheepshead, the largest ever known landed here. Saturday, he got a 10 pound drum. Monday, a 9½ pound sheepshead became a victim of this disciple of St. Izaak Walton.

Yesterday, Capt. Wesley Johnson took Dr. G. E. Terrill, W. S. Jackson, B. P. Foster, J. R. Sugarman all of Cleveland, and C. M. Chaffee, of Columbus, on a fishing trip in his launch to Spruce creek. The party had splendid luck, catching a large number of fish, but Mr. Foster broke the record. This gentleman succeeded in landing a 12 pound sheepshead, the largest to date of which there is a record.

Accident to Cherokee.

About eighty visitors went down to the shell heap, Conrad's dock, this morning, intending to take the Tomoka trip aboard the popular steamer, Cherokee, but found that she had broken the sheave of her chain tackle and was unable to make the trip.

Messrs. Heath and Dickinson chartered the Grant Ferris and two other launches to carry their passengers on the trip, but found them inadequate to seat the crowd. They were unable to charter a fourth boat and, as a consequence, a few who intended to make the trip were left behind.

The Cherokee was repaired today and will be ready for her regular trip down the river tomorrow.

Change in Express Agency.

V. O. McConnell arrived from Jacksonville yesterday and will be appointed as agent of the Southern Express Company, vice Frank H. Webber, resigned.

Mr. Webber has been agent here for about a year now, and during that time has made himself very popular with the majority of the patrons of the Express company by his courteous treatment of them and by the dispatch with which he has handled the greatly increased business. Mr. Webber will likely be appointed agent at Titusville, where he and his mother own a home.

The incoming agent, Mr. McConnel, is an old and reliable employe of the Company and has had experience in much larger offices than this one. Mr. McConnell will be joined by his wife as soon as he gets settled here.

The circulation of the DAILY NEWS is steadily increasing and on Monday passed the 500 mark by a clear majority of 100. Monday's edition of the paper was exhausted fifteen minutes after the last form was off the press. 600 for a daily in a city the size of Daytona is a very creditable showing and is evidence that the public appreciate our efforts. It shall be our aim to build the circulation to a still higher figure and to accomplish this will make it better and better each day.

Big Fish Caught in Halifax.

(Continued from First Page

caught here, but during the past few days several large strings have been caught, and all records for big sheephead have been broken.

R. T. Pearson, of Alleghany, Pa., started in last week and caught an 8¼ pound sheephead, the largest ever known landed here. Saturday, he got a 10 pound drum. Monday, a 9½ pound sheephead became a victim of this disciple of Sir Isaak Walton.

Yesterday, Capt. Wesley Johnson took Dr. G. E. Terrill, W. S. Judson, B. P. Foster, J. R. Seagraves, all of Cleveland, and C. M. Chaffee, of Columbus, on a fishing trip in his launch to Spruce creek. The party had splendid luck, catching a large number of fish, but Mr. Foster broke the record. This gentleman succeeded in landing a 12 pound sheephead, the largest to date of which there is a record.

Accident to Cherokee.

About eighty visitors went down to the shell boat, Conrad's dock, this morning, intending to take the Tomoka trip aboard the popular steamer, Cherokee, but found that she had broken the sleeve of her electrode and was unable to make the trip.

Messrs. Heath and Dickinson chartered the Grant Ferris and two other launches to carry their passengers on the trip, but found them inadequate to seat the crowd. They were unable to charter a fourth boat and, as a consequence, a few who intended to make the trip were left behind.

The Cherokee was repaired today and will be ready for her regular trip down the river tomorrow.

Change in Express Agency.

V. O. McConnell arrived from Jacksonville yesterday and will be appointed as agent of the Southern Express Company, vice Frank H. Webber, resigned.

Mr. Webber has been agent here for about a year now, and during that time has made himself very popular with the majority of the patrons of the Express company by his courteous treatment of them and by the dispatch with which he has handled the greatly increased business. Mr. Webber will likely be appointed agent at Titusville, where he and his mother own a home.

The incoming agent, Mr. McConnel, is an old and reliable employe of the Company and has had experience in much larger offices than this one. Mr. McConnell will be joined by his wife as soon as he gets settled here.

King Carlos a Crack Shot.

King Carlos of Portugal is generally known to be a crack shot with the revolver, but most people have forgotten that he once won a prize at a competition after shooting off a tie with the best shots of this country and England. This feat he performed in 1886 at Wimbledon, England, his American competitor being Mr. Winans. The Englishman was Mr. Elliott. Carlos, then duke of Braganza, carried off the prize.

Visions In Cactus.

A Mexican cactus is eaten by Indians during their religious ceremonies to incite visions. An English naturalist, Dr. Dixon, has been testing upon himself its extraordinary properties and reports that the air seemed filled with vague odors of perfumes, a halo of musical sounds surrounding him, and a marvelous display of ever changing brilliant colors passed clearly before his vision.

No Thoroughfare.

The Buffalo Commercial says that a neatly framed card bearing the inscription, "Low Bridge! C. A.," is a significant warning now affixed of an evening to the doors of some of the most exclusive flats in Buffalo. It simply conveys in brief and more or less courteous language that the inmates are engaged at cards, and will the visitor please call again.

A Child's Heirship.

The Duchess of Westminster's baby son is heir to an income of £700 a day, or £255,000 a year. His title during his father's lifetime is Earl Grosvenor, taken from the family name, and if he survives his father he will inherit 30,000 acres, including 600 acres of the most valuable land in the west end of London.

Reform must be hitting New York hard. A policeman there has filed a petition in bankruptcy.—Baltimore American.

The president of an Alabama college says that "coon songs" hurt the colored race. The negroes cannot suffer any more from them than the white folks do.—Washington Post.

Dr. Spitzka declares the brains of criminals are no different from other people's, but perhaps in some recent cases it was the brains of the victims which were deficient.—Brooklyn Union.

Will the good ladies of the Mothers' club who wish to taboo the Mother Goose rhymes please tell us some other way of warbling an obstreperous kid to sleep? We have tried Shakespeare, Homer and Ruskin; also an ax.—Philadelphia Telegraph.

SPEED RECORDS.

Oarsmen in an eight oared barge acquired a speed of 197 inches in a second.

Ice boats skim over the ice at velocities that have reached thirty-six yards a second, or more than a mile a minute.

The swiftest dog in the world, the borzoi, or Russian wolfhound, has made record runs that show seventy-five feet in a second, while the gazelle has shown measured speed of more than eighty feet a second.

Skaters average from nine to ten yards a second, while runners on skids have made as much as twenty-one yards in the same time, and the jumper on skids has developed almost forty yards velocity in a second. The man who made this record jumped 120 feet.

Mayor's Court

The colored citizens of Midway have made complaint to the Mayor of the disorders which occur at Wilcox's Hall whenever any entertainment is given there. As a result the place is being watched carefully and order will be preserved in the future if it requires a dozen arrests to do it.

Monday night, Jos. Mitchell and Daniel Singleton "got gay" in the hall and tried to prove that they were the whole cheese. Officer Sampson promptly quelled them and took them before His Honor who relieved them of ten pluches and Dan of twice as much.

Hiram Edwards, another colored sport, coughed up $2 and costs for taking up with colored women at the same inclosure for them.

The city is richer by many soul coins.

A party of citizens from the South Inn chartered the launch "Silver" and went up the Tomoka and had a delightful time. Members—Kenner Stories, Antcher, Messrs. Reuter, E. G. Hamblin, L. C. Hamblin, Nilson, Redmond, Hunt, Burgdorf and Geo. A. Antcher tried to commandeer the jug belonging to the captain.

John Mahrt says that a cobble house will be built on the north side of Magnolia avenue, nearly opposite the wood yard. The lots will be cleaned up on Fifth Day before building.

R. B. Poston will soon start the erection of two model cottages on Fairview avenue and one in Kingston.

Longe & Co. are building a scow which will carry about 200 bushels of oysters. They propose to run this scow next summer in transplanting oysters from the river to River Bay.

The City Hotel entertained 175 more drummers during the past six months than during the same period a year before.

The launch Mower took a number of The Cleveland's guests to New Smyrna and the Inlet yesterday. The party evidently had a pleasant day judging from a remark made by one of the gentlemen who exclaimed "We had a bully good time!"

Jos. R. Casey, who travels for a large fishing tackle house in Baltimore, is registered at the City Hotel. Mr. Casey came here twenty years ago and again eight years ago. He seemed much surprised at the growth and improvement made.

Mr. and Mrs. Chas. Winningham celebrated their tin wedding at their home in Kingston last night. Their many friends have provided them with an abundance of tinware.

A. Tressott Lauch will give a dramatic recital at The Grand Atlantic tonight.

The crank shaft has arrived for Mr. Conway's auto and he will soon be able to drive around again.

The propeller for McCoy Bros' new auto boat arrived yesterday. It is twenty-two inches in diameter and forty inch pitch and should make the boat speedy.

BREVITIES

THE HALL OF FAME.

Augustus Maxen, one of the few persons who studied law under Lincoln, has just died in Canon City, Colo.

W. J. Bryan recently purchased a 100 acre silver patch but I once owned it. Thomas Jefferson. He secured it from Dr. J. M. Scott of Culpeper, Va.

F. Latrabee, who is to be assistant superintendent of Indian affairs, has had a long experience in field work among the Indians, and his name has never been connected with failure in any of his enterprises.

Chief Justice Richard H. Alvey of the United States court of appeals of the District of Columbia, one of the most eminent Marylanders in public life, will soon retire to his farm, Locust in Hagerstown. He is seventy-eight years old.

Justice David J. Brewer of the United States supreme court, has been connected with the Sunday school for more than forty years, and in a recent Congressional he has an article, "What I Have Gained From Bible Teaching."

Three of the presidential electors chosen by Indiana to vote for Lincoln in 1860 are still living. They are Jacob Jackson of Elkhorn, who carried the vote to Washington; Colonel Roy of Indianapolis and Major Will Cumback of Greensburg.

Major Wells Bacho, under whose supervision Port Arthur was fortified, is regarded as the greatest living military engineer. He is now forty-eight years of age. It was he who outlined the entire plan for the fortified circle of mountains and hills surrounding the fortress.

Hiram Cronk, the only survivor of the war of 1812, is still living with his daughter in New York state, and arrangements are being made in Brooklyn to which due honor shall be paid the old soldier when he shall have passed away, and his body will be placed in a plot in Mount Victory cemetery alongside those of his comrades in the war of 1812.

A man must be both stupid and unscrupulous who believes there is no virtue or truth but on his own side.—Addison.

Mayor's Court

The colored citizens of Midway have made complaint to the Mayor of the disorders which occur at William's Hall whenever any entertainment is given there. As a result the place is being watched carefully and order will be preserved in the future if it requires a dozen armed men to do it.

Monday night, Jas. Mitchell and Daniel Singleton "got gay" in the hall and tried to prove that they were the whole cheese. Officer Sampson promptly pinched them and took them before His Honor who relived Jim of ten plunks and Dan of twice as much.

Hiram Edwards, another colored sport, coughed up $3 and costs for taking up with cheap booze time at the same nubian function.

The city is richer by many sessions.

A party of eleven from the Seaside Inn chartered the launch "Gleam" and went up the Tomoka and had a delightful time. Mesdames Kenney, Stearns, Anicker, Messrs. Kenney, E. G. Hamblin, L. C. Longe & Co. are building a scow which will carry about 200 bushels of oysters. They propose to use this scow next summer in transplanting oysters from the river to Rose Bay.

The City Hotel entertained 175 more drummers during the past six months than during the same period a year before.

The launch Moyer took a number of The Cleveland's guests to New Smyrna and the Inlet yesterday. The party evidently had a pleasant day judging from a remark made by one of the gentlemen who exclaimed: "We had a bully good time!"

Jos. B. Casey, who travels for a large fishing tackle house in Baltimore, is registered at the City Hotel. Mr. Casey came here twenty years ago and again eight years ago. He seemed much surprised at the growth and improvement made.

Mr. and Mrs. Chas. Winningham celebrated their tin wedding at their home in Kingston, last night. Their many friends have provided them with an abundance of tinware.

J. Trescott Leach will give a dramatic recital at The Grand Atlantic tonight.

The new crank shaft has arrived for Mr. Conway's auto and he will soon be able to drive around again.

The propeller for McCoy Bros.' new auto boat arrived yesterday. It is twenty two inches in diameter and forty inch pitch and should make the boat speedy.

BREVITIES

THE HALL OF FAME.

Augustus Macon, one of the few persons who studied law under Lincoln, has just died in Canon City, Colo.

W. J. Bryan recently purchased a 100 pound silver punch bowl once owned by Thomas Jefferson. He secured it from Dr. J. M. Scott of Culpeper, Va.

C. F. Larrabee, who is to be assistant commissioner of Indian affairs, has had a long experience in field work among the Indians, and his name has never been connected with failure in any of his enterprises.

Chief Justice Richard H. Alvey of the United States court of appeals of the District of Columbia, one of the most eminent Marylanders in public life, will soon retire to his former home in Hagerstown. He is seventy-eight years old.

Justice David J. Brewer of the United States supreme court, has been connected with the Sunday school for more than fifty years, and in a recent Congregationalist he has an article, "What I Have Gained From Bible Teaching."

Three of the presidential electors chosen by Indiana to vote for Lincoln in 1860 are still living. These are: Isaac Jenkinson of Richmond, who carried the vote to Washington; Colonel Ray of Indianapolis and Major Will Cumback of Greensburg.

Major Weitsche, under whose supervision Port Arthur was fortified, is regarded as the greatest living military engineer. He is now forty-eight years of age. It was he who outlined the entire plan for the fortified circle of mountains and hills surrounding the fortress.

Hiram Cronk, the only survivor of the war of 1812, is still living with his daughter in New York state, and arrangements are being made in Brooklyn by which due honor shall be paid the old soldier when he shall have passed away, and his body will be placed in a plot in Mount Victory cemetery alongside those of his comrades in the war of 1812.

DAYTONA is situated upon the west bank of the Halifax River at its most convenient and scenic point of entrance at Ridge Bay and its outlet at Mosquito Inlet. It is in latitude 29 degrees north, and is 57 feet above sea level and one mile from the Atlantic ocean, and is acknowledged to be without a rival for beauty and the charms of the locality. Its site is what is known as high pine land, but not wearing to the appearance of a most royal growth of majestic forest trees, and among these trees is the town of bodies, with its two-story cottages and well-shaded streets. The result is that all along the wide avenues the inhabitants of the town are boldly live and have safe and healthful homes, many of them draped with graceful festoons of the gray Spanish moss, that overarches the street and walks, and among these are interspersed tall tropical palmettos, showy leaved magnolias, fragrant bay and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the snapdragon climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the towns greatest attractions.

The main avenues that run parallel with or intersect the river are of ten feet wide, except Beach street which is about sixty-five feet, but has a half mile of open, beautiful water dashing upon its eastern side where the salt waves ebb and flow and rising and across which comes the cooling, invigorating and health-giving breeze from off the wide Atlantic, which tempers and renders the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macked and shelled roads and streets rendering if the

Wheelman's Paradise

and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long distance cycling and driving as automobile racing. No town of equal size, South or North, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages

that have been erected during the past years and are being built are peculiar to Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding every to its attractions.

Not the least of these attractions to those securing homes in the South and coming second only to health fulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, City Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply

which is derived from numerous flowing wells, of which there are probably 500 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona

proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Seabreeze, Glenn, Seabreeze or Goodall, Seabreeze and Silver Beach, which are properly a part of the town and population.

Daytona Beach

lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal steamer resort south of St. Augustine. It has many tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

Automobile Race Meet.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a national reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is hared for 200 feet and neither carriage wheel, bicycle or pedestrian can make a muddy visible impress on the smooth and well-packed sand. It is no unusual sight to see self-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these miles of hard-shelled, palm-fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the matchless over the road bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at eddible, measures about 500 feet, and the average depth of the surf measures about ten feet. A continuous gentle swell rolls in from the ocean from one to two feet a depth under normal conditions, making the bath an attractive and absolutely safe place for surf bathing. Here the infant as well as the grey haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer can venture out further to test his strength and skill in battling with the unscientific powers of the mighty ocean.

The Peninsula

lying between river and ocean is one half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, an opera house, two ocean piers, beach pavilion and a large casino.

A Remarkable Feature

of Daytona has been the yearly increment in the acreage and value of he buildings that are being erected or homes. Men of capital of the north and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly homes, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying. Seabreeze (City) Beautiful, and Goodall are settlements on the ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the fineness of these affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this game fish in an afternoon, individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river.

DAYTONA is situated upon the west bank of the Halifax River at its widest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of to-day, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are boldly live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy leaved magnolias, fragrant bays and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the ampelopsis climb and cling among the branches forming shady bower and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street which is about sixty-five feet, but has a half mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, marled and shelled roads and streets, rendering it the

Wheelman's Paradise

and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages

that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply

which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona

proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach, which are properly a part of the town and population.

Daytona Beach

lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

Automobile Race Meet.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bared for 500 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm ringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at ebbtide, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the grey-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula

lying between river and ocean is one half mile wide, and is being rapidly improved; and there are many fine cottages and several good hotels, an opera house, two ocean piers, beach pavilion and a large casino.

A Remarkable Feature

of Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying.

Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon, individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river.

Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.
